

Veteran's Initiative Grant

National AMBUCS has committed to helping those who have served in the United States military by providing a grant opportunity for Amtryke Adaptive tricycles. We are thrilled to be able to provide deserving veterans a way to participate in physical activity without the barriers we commonly see within the disabled community. Each year several veterans will receive an Amtryke at no cost to themselves through the Veteran Initiative Grant.

The application process will consist of completion of an Amtryke Request form, submission of the letter of need and a copy of veteran's DD214, and then review by the ARC. Letter of need is to be written by the Veteran themselves with information pertaining to their desire for an Amtryke, service history, financial need, etc.

Rules:

- Only one grant will be awarded per Chapter.
- All applications must be submitted to Marisa Laws by August 1st and decisions will be made by August 30th of each year.
- Number of recipients will fluctuate based on individual riders' needs and funds each year.

To submit application for consideration: email the above-mentioned documentation to Marisa Laws at marisal@ambucs.org Please reach out with questions via email or phone at 800-838-1845 x123
