Amtryke Adaptive Tricycle Request Form

(Must be filled out completely by adult rider or parent/guardian)

Recipient's Name: _____ Date of Request: _____
Mailing Address: _____ Age: _____
City/State/Zip: _____ Phone #: _____
Diagnosis: _____ Email: _____

If Recipient is Under Age 18

Parent/Guardian Name: _____
If different from above
Mailing Address: _____ Phone #: _____
City/State/Zip: Email:

Secondary Contact Name: _____ Phone #: _____

Treating Therapist's Name: _____
Phone #: _____ Email: _____

How did you hear about the Amtryke Adaptive Tricycle? (Check all that apply)
☐ Therapist ☐ Website ☐ AMBUCS Member ☐ Other: _____

Will you need financial assistance to obtain the tricycle? ☐ Yes ☐ No
If yes, how much can you pay? _____
Note: Amtryke adaptive tricycles are distributed based on available funds and need. Individual placements of Amtryke adaptive tricycles are at the discretion of the local chapter or parent organization.

Is the recipient a U.S. Veteran? ☐

Tell us about the recipient*: _____

*This information will be made public to help obtain funding. Please don't include information you don't want shared.

Including a photo of the recipient will help us obtain a sponsor to help you pay for the Amtryke more quickly. Digital images preferred but we also accept professionally printed glossy photos. No photocopies or folded images.
By including a photo, you are giving consent for AMBUCS to use the image online and in print to help obtain a funding.

Signature: _____ Date: _____

Individuals will not be considered for placement until all three forms are returned to AMBUCS: this form filled out by the recipient/guardian, as well as the Assessment Form and Tryke Selection Form filled out by the therapist.

Please mail, email or fax completed form to your local chapter or the AMBUCS Resource Center **(800) 838-1845**
Resource Center: 1930 Alleghany St. High Point, NC 27263 Email: wishlist@ambucs.org Fax: 336.852.6830 **ambucs.org**
This Form, the Assessment Form and Tryke Selection Form must be received by your local chapter or the Resource Center before placement is considered.

Amtryke Adaptive Tricycle Waiver Form

(Must be filled out completely by adult rider or parent/guardian)

AMBUCS members nationwide are dedicated to creating opportunities for mobility and independence by providing Amtryke adaptive tricycles, offering educational scholarships to therapy students and performing various forms of community service.

Purpose: The Amtryke adaptive tricycle creates a feeling of freedom, builds self-esteem, strengthens muscles and improves motor coordination and rage of motion—all while making exercise fun.

Steering: Initially, the rider may have difficulty turning or changing directions. Encourage the rider to go straight ahead, back up and slowly turn around. On many models there are three steering options for the Amtryke. On the front column of the tricycle you will find two holes for the steering pin. The top hole is straight steering, the bottom hole allows a 20-degree turning radius. Leaving the pin out gives the rider free steering.

Safety Cautions

- Fast speeds and sharp turns can cause the Amtryke adaptive tricycle to tip or turn over.
- Always wear a helmet when riding an Amtryke. Use of other protective gear is highly recommended.
- Adult supervision required if used by younger or developmentally delayed riders.
- Use caution near vehicles, swimming pools and other bodies of water, hills, alleys and sloped driveways.
- Always wear shoes.
- Never allow more than one rider.
- Use of the steering pin is recommended to prevent over-steering or possible tip-overs.

The information contained in this service is not intended nor implied by National AMBUCS™, Inc. to be professional medical advice by National AMBUCS, Inc. Always seek the advice of your physician, therapist or other qualified healthcare provider prior to staring any treatment or with any question you may have regarding a medical condition. Nothing contained in this document is intended by National AMBUCS, Inc. to be for medical diagnosis or treatment by National AMBUCS, Inc. or on behalf of National AMBUCS, Inc.

Information Sharing and Email Agreement

I understand that my Amtryke request information may be sent to AMBUCS via email.
I acknowledge that email communication may not be encrypted and that my personal information could be at risk of unauthorized access.
I give permission for my therapist to share and discuss relevant information with AMBUCS to assist in obtaining an Amtryke.
I understand this information will be used only for the purpose of evaluating and processing my Amtryke request.

☐ Yes, I consent
☐ No, I do not consent

☐ I agree that the rider listed on the front of this document may be photographed. I also agree that the photos and recipient's name may be used in promotional efforts for National AMBUCS, Amtryke or the local AMBUCS chapter. I further grant AMBUCS the ability to use the photos and name for advertising/publicity purposes without additional compensation, except where prohibited by law. If anybody in my party does not want to be photographed under these same terms, I will let the photographer know as soon as possible.

By signing below, I acknowledge that I have read and understood this liability waiver.

Amtryke Evaluation Packet

(Must be filled out completely by therapist or physician)

Thanks for choosing an Amtryke adaptive tricycle! In order to accommodate the widest variety of people, Amtryke offers many tryke models and each can be customized in a variety of ways. Following the steps below will help you choose to the best tryke for your client from our wide variety of options. You can always refer to our website, www.amtrykestore.org, or the Amtryke catalogue for more information and product images.

Step 1: Fill out the Amtryke Assessment Form.

Step 2: Choose the way the tryke will be propelled: **Hand & Foot, Foot,** or **Hand**. Your choice should be based on the rider's ability and therapy goals.

Foot trykes were developed in response to requests from therapists for a traditional tricycle for riders with special needs.

Hand & Foot trykes improve coordination, strength and range of motion. Using all four extremities helps with weakness in any area, even general weakness, and can positively affect tone.

Hand trykes are designed for persons whose lower limbs lack function or those who need special therapy for the upper extremity.

Step 3: Take rider's measurements from the front of this Assessment Form and compare them to our Sizing Chart (the final page of this packet). This will narrow the choices considerably.

Step 4: Chose any adaptations and/or accessories needed by the rider. Each tryke model can only be customized in the ways noted in its own model section in the Tryke Selection Forms, or with accessories from the Generic Accessories section. If a customization option is not listed, it is because of design or other practical constraints in offering it on a particular model.

Note: The 1416, 1420, and 1420XL Foot Trykes offer two drive possibilities: **fixed** drive or **geared** drive. A **fixed** drive, commonly known as a 'fixie,' works on a mechanical level to help individuals make a full pedal rotation. The foot crank is constantly in motion for full therapeutic effect. Coasting is not possible with a positive drive; when limb motion stops, the bike does as well.

Riders of **geared** drive trykes must be able to make a complete pedal rotation on their own. This tryke is suitable for riders who need help with balance and a stable sitting position and who have the cognitive ability to steer successfully and apply the coaster brake or hand brake. The key feature of geared trykes is the ability to coast.

Amtryke Therapist Assessment Form

(must be signed off by a licensed PT, OT, or RT)

Rider's Name: _____

Birth Month/Year:_____ Weight (lbs):_____ Height (inches):

Diagnosis:_____

This information is private and only utilized to appropriately fit the rider

Rider Information:
